SUBJECT: Transportation Improvement Program Amendment - American Rescue Planning Act of 2021 Federal Transit Administration Route Restoration Plan Grant Award

STAFF RECOMMENDATION

Recommend that the Metropolitan Transportation Planning Organization amend its Transportation Improvement Program to add the American Rescue Planning Act of 2021 Federal Transit Administration Route Restoration Plan Project [4474452] (see Exhibit 1).

BACKGROUND

At its July 11, 2022 meeting, the Metropolitan Transportation Planning Organization amended its Unified Planning Work Program to include an American Rescue Planning Act of 2021 planning grant award to the City of Gainesville Regional Transit System. The \$300,000 award is a Federal Transit Administration grant for a Route Restoration Plan.

Since then, the Florida Department of Transportation is requesting that the Metropolitan Transportation Planning Organization amend its Fiscal Years 2022-23 to 2026-27 Transportation Improvement Program to add this project. This amendment is needed in order for the Regional Transit System to receive these federal funds.

Doreen/Karen:

FYI. We were ready to submit this application to FTA for review but after being told that we do not need to include the project on the STIP, now we do. Please see email below from FTA.

The project is ARPA Route restoration grant for \$300,000 as shown on the updated UPWP pages 21-22 (see attached document).

Please let us know if you need any additional information to include this project on the STIP.

Thanks.

Hi Colby,

Recently RTS was notified its submitted project was selected for ARPA Route Restoration funding. We were thrilled to be selected and we're looking forward to initiating the project. We're almost done

with the application in TrAMS and are just waiting for the amended Unified Planning Work Program (amendment has been requested). Today I've learned that it must also be included in the FDOT STIP?

Regarding the project being included in the STIP, the NOFO (attached) did not mention this, although it does mention requiring project inclusion in the UPWP. The below slide was included in a 5/5/2021 FTA webinar, and compares the differences between the various types of emergency relief funding. ARP is clearly presented as not requiring TIP/STIP if the projects do not involve substantial changes to the function, location or capacity of the asset(s) involved (which is the case for RTS's project).

We can request inclusion in the STIP, but it will impact the timeline for the project and most likely will push its start date into 2023 as our MTPO only meets on a bi-monthly basis. Before we initiate the request with our local MTPO and FDOT, can you please clarify the STIP requirement?

Comparison of Funding Features
